**MURPHY BEDS of Los Angeles** is a family owned and operated business, specializing in custom Murphy Beds and other custom build-outs. We work directly with you, our customer, from initial design concepts through to installation day. Using only American made plywood and locally sourced hardwoods, we stand behind our work and offer a lifetime guarantee on all builds.

**Murphy beds** are a space saving dream, a masterclass in space efficiency with small footprint yet BIG function, all without compromising on comfort! Ideal for studio apartments, guest rooms, home offices, or multi-use rooms as well as ADUs, OUR Murphy Beds are highly customizable with desks, drawers, shelves, sofas and storage, offering even more versatility and style.

**Our process** begins with an initial meeting where we discuss your exact design needs and vision. We come to you, looking at the space your new murphy bed will live in. We create a sketch and work directly with you on any changes that you would like. We then source your materials and begin the build! On to Installation day, the designer and cure are there to ensure everything is just as you had envisioned. All with a lifetime guarantee.
